

**PERFECT CARPET  
TIMELESS FLOORING SOLUTIONS**

# **KALYANAM FELT**

## **THE PRODUCT**

The Oculus range of carpets sets high standards in quality, durability and decor, Manufactured in a state of the art. Oculus non woven carpets meet international standards of fibre bonding & stain resistance, thermal insulation and antistatic properties. These carpets offer unique features for excellent fibre bonding & processing for very high resistance to abrasion. These are available in a wide range of assorted shades. Every Oculus product is produced for an addition to our extensive stock range for one-off carpet to meet customer's individual needs.

## **INSTALLATION**

For best results, installation of carpets should be done by a professional. Carpets should always be laid on an surface which is clean and dry to ensure long life. Stretch the carpet fully and apply the adhesive evenly throughout, during installation, Adhesive, evenly spread, on the entire carpet is recommended. Overlap the carpets to be joined and then splice to achieve a perfect joint.

## **MAINTENANCE**

Though carpet brush can be used, use of vacuum cleaner is recommended. Prompt stain removal is important. For liquid, use blotting paper or absorbent cloth. Use shampoo or non alkaline liquid detergent for removing water based stains. Semi solids and greasy substances should scraped out with the help of a knife cleaned with cleaning solvents.

## **SHADE VARIANCE**

Due to inherent limitation of dyeing techniques, colours may vary slightly lot. Use carpet rolls the same lot in one area.

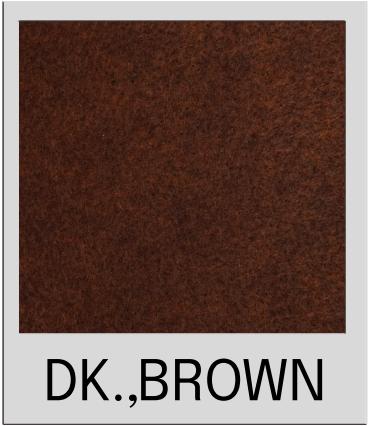

Swatches are for shade references only not for quality. GOLDEN offers best value for money.
